

# Contractors Combined

**Free risk management support for QBE customers.**

**By helping you to manage your risks, we free you up to focus on achieving your goals.**

As a QBE customer you have unlimited access to specialist risk management support designed to help you prevent workplace injury and ill health, protect the public, reduce product liability exposure and prevent damage to third-party property.

From ad-hoc advice on demand, site-based risk assessments, online training modules and self-service materials and toolkits, we can deliver the support you need, in a way that works for you. And all materials are written in plain and practical English, so no need to decode risk-related jargon.

## Health and safety e-learning

In partnership with RoSPA (The Royal Society for the Prevention of Accidents), our free accredited Bitesize Health and Safety E-learning Kit is an online resource designed to complement your existing training and systems and make health and safety compliance easier and more cost effective. Content covers a range of construction-related topics, from workplace transport to risk assessment.

## Self-assessment questionnaire and toolkits

Through our online risk management self-assessment you can review, assess and prioritise action for the key risk exposures you face, from slips and trips to site security risk management. Your bespoke action plan will then signpost you to relevant topic-based toolkits developed with industry experts to share leading practice and support your efforts to improve your risk management.

## Risk snapshots

The key to successful site risk management is getting the right information to the right people at the right time. To help you, we've developed a series of 32 short and snappy guides for you to use on site to brief both managers and site operatives and supplement your toolbox talks.

## Minds in Business

Mental health issues are the single biggest cause of workdays lost in the UK. To help you meet this mental health challenge, we've collaborated with renowned charity Mind, and other trusted mental health providers to launch an organisational mental health optimisation tool, unique in the insurance market. After completing the process you'll be provided with a bespoke risk improvement plan which will signpost you to a suite of resources and guidance.

## Ongoing knowledge

In our Knowledge Centre you can keep up to date with a wide range of guidance on current industry hazards, claims, legal cases, emerging risks, and best practice. We'll help you navigate an increasingly challenging and complex risk landscape, with assessments, guidance, and practical advice.

## Ready to get started?

As a QBE customer, we're with you for the long-term, supporting you every step of the way.
